

It's our mission to improve lives

Patients →

About us

We were founded on the idea that there is a better way to care for our communities.

We deliver NHS general practice, community and urgent care services to the nation, but do so much more.

OneMedical Group is home to talented GPs, nurses and other clinicians working together with experts in primary care, acute care, health and wellbeing, healthcare estates, technology and innovation, along with strategic leaders, collaborators and transformers.

We are passionate about improving health and wellbeing. Everyone should have good wellbeing, so it is at the heart of everything we do.

OMG Foundation

OMG Foundation brings together OneMedical Group's passion of supporting our local communities, developing business innovation, and providing leadership and advocacy to our health economy.

Our OMG Foundation is an ideas, innovation and resource hub that supports the communities we operate within. This is how we

will play our part in meeting the challenges that face healthcare and local communities over the coming years.
